

My thanks to Val, Heather and the committee for inviting me to the show. I was very fortunate to have an American judge and Birman breeder, Carolyn Prucha as my steward. Carolyn had come over from her home in the USA, just to visit the Birman CC Show and did an amazing job for me. Carolyn is an American judge and successful Birman breeder. I hope that you enjoyed experiencing our judging system and seeing all our beautiful Birmans, Carolyn.

#### **BLUE POINT BIRMAN ADULT FEMALE**

CC, HORTON'S CH KYNOBI TRINITY, 13c2, F, 08/08/08

Blue. This young lady had a very nice expression and lovely eyes. Medium sized ears, set well apart. Nice head shape with full cheeks. Slight drop-off towards the tip of the nose though she does have a good slight dip. Chin could be a little firmer for perfection. Another blue with fabulous deep blue eyes, large and expressive. Quite a long body, nice weight for size and age. Balanced limbs of medium length. Tail was very well furnished and bushy. Quite a deep shade of blue-grey to the points, showing excellent contrast with the bluish white body colour. Fairly long coat, very silky texture with a ruff present. Slightly scalloped gloves, well marked socks and gauntlets of good length. A beautifully presented young lady.

2<sup>ND</sup> FINCH'S CH SNOWWITCH KINGDONOFSUMMER, 13c2, F, 25/06/07

Blue. A smaller female though she was well balanced. Fairly broad rounded head, full round cheeks, nice profile to the nose, showing a slight dip. Chin could be a little firmer. Medium sized ears, set quite wide apart on the head. Mid blue eyes, initially a little bold though better shape and set when she relaxed. Medium sized girl who had good weight for size, with fair boning to legs and paws. Tail was quite bushy and balanced well with the body. Quite a deep shade of blue-grey to the well marked points, showing very good contrast with the bluish white body colour. Medium length coat, some ruff present, nice silky feel to the fur. Very well marked feet all round. I would like to see her a little larger at this age, though she was of good weight and balance. Well presented.

3<sup>RD</sup> MOTT'S CH CAMULODUNUM LADYOFTIREE, 13c2, 19/04/06

Blue. A large and very solid female. Rounded shape to the head, quite broad with full cheeks and a well developed muzzle. Ears currently sitting a little high and close on the head, and for me, this detracts from the overall expression. Lovely deep blue eyes, almost round, large and expressive. Long, very heavy balanced body. Good thick set limbs. Short paws. Well furnished, bushy balanced tail. Good contrast between blue-grey points and the bluish white coat. Gloves angled outwards slightly, back feet have well marked socks and gauntlets. Back feet were a little stained. An impressive weight and size to this girl.

Red Point. A really heavy male with a long body and quite large boning to limbs and paws. Nice head shape, mid blue eyes. Unfortunately, he had white going beyond the stopper pad on the side of the right front leg and because this is a withholding fault, I was unable to give him the first place. He was lovely to handle.
